UNITED STATES INTELLIGENCE BOARD

MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT : Recommended Targets for Low-Level  
Reconnaissance of Cuba

REFERENCE : USIB-D-41.14/13 (COMOR-D-24/48),  
21 February 1963

1. The Committee on Overhead Reconnaissance has reviewed the approved low-level objectives in Cuba as set forth in the reference. Those targets and others have been examined individually in the light of all-source information acquired during the past few months. The attached revised list of targets in order of priority have been prepared for USIB consideration. It will be noted that a number of targets have been removed and some new targets have been added.

2. In view of the fluid situation with regard to the possible need for low-level reconnaissance, COMOR believes an agreed list should be readily available for reference. COMOR will be keeping this list under current review, particularly including the results of low-level missions, if and when accomplished.

USIB Action Requested:

3. It is requested that the members of the Board indicate their concurrence or objection to this target list through return to the Secretariat of the vote sheet at Tab A, by the close of business 28 June. Should there be any disagreement on this matter it will be placed on the agenda of the 3 July Board meeting.
